

Telio Holding ASA

Q4 07 presentation

Eirik Lunde, CEO

Oslo, 12 February, 2008

Telio Holding ASA

- Leading European broadband telephony provider
- Committed to improving user experience and reducing cost to subscribers
- Innovative products and services based on scalable, access independent technology platform
- World renowned technology experts
- Headquartered in Oslo, listed on OSE with ticker "telio"

Q4 07 Highlights

- Continued customer growth
 - Subscribers: total increase of 4,214 VoIP customers during 4th quarter
 - Revenues: NOK 94.3 million, 20% increase compared to Q4 06
- Financials
 - 62% gross margin
 - 18% EBITDA margin
 - Strong operating profit of NOK 5.3 million (Q4 06: -13.7) including NOK 1.4 million in one-off costs related to M&A activities
 - Increased gross margin, OPEX continues to scale
 - Healthy cash position: NOK 122.9 million
- Customers & distribution
 - SMB service gradually adding to customer intake
 - Continuous customer growth in Denmark and Netherlands

2007 Highlights

- Continued customer growth, + 19,216 active VoIP customers added during 2007
 - Norway: 8,415
 - International: 10,801

- Strong performance:

(Figures in NOK million)	2007	2006	+/-	+/-
Net revenues	362.3	290.8	+71.5	+25%
Gross profit	213.8	156.4	+57.4	+37%
Gross margin	59%	54%		
EBITDA	63.7	19.6	+44.1	+225%
EBITDA margin	18%	7%		
EBIT	14.2	(16.7)	+30.9	

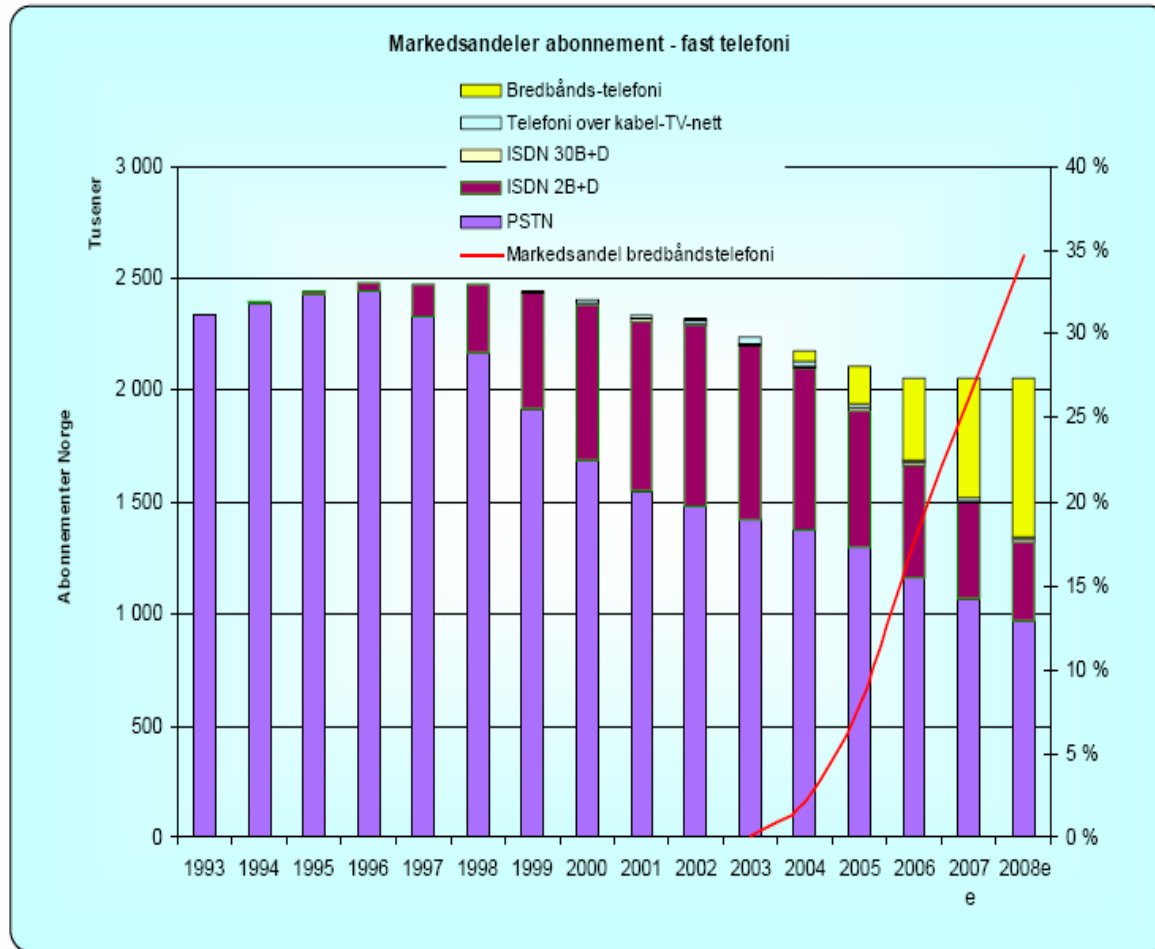

Norway

Focus on profitable growth:

- SMB
 - Strong growth in the SMB segment
 - Telio's acquisition cost for an SMB customer is less than half of the acquisition cost in the residential market
 - 1,000 SMB lines in 2007
 - Agreement with Småbedriftsforbundet
 - Deliveries to larger companies like Reinertsen, Hjellegjerde and DNO
- Target sales towards residential
- More focus on GSM up sell to existing VoIP customer base

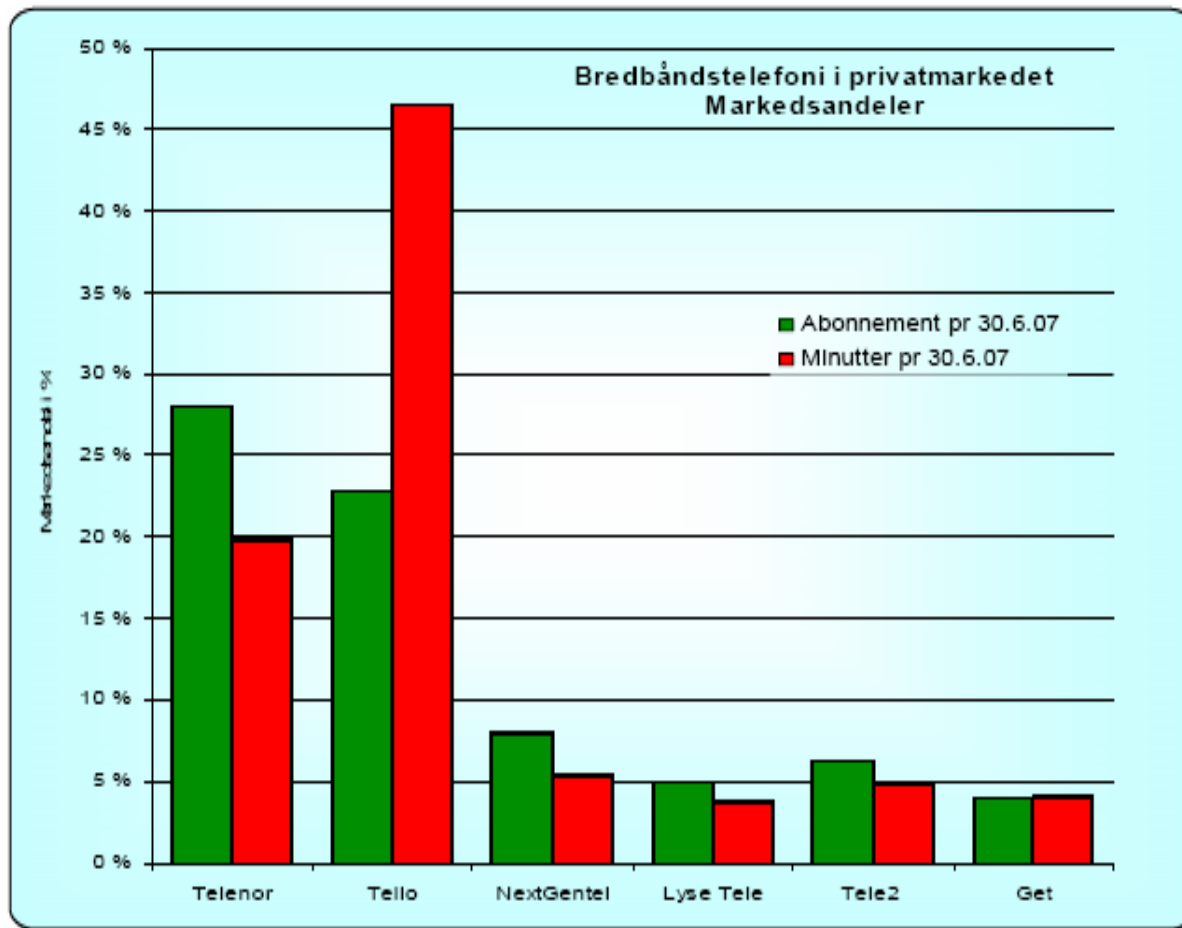

VoIP market share - subscriptions

- PSTN and especially ISDN is decreasing
- VoIP market share is expected to reach more than 30% in 2008

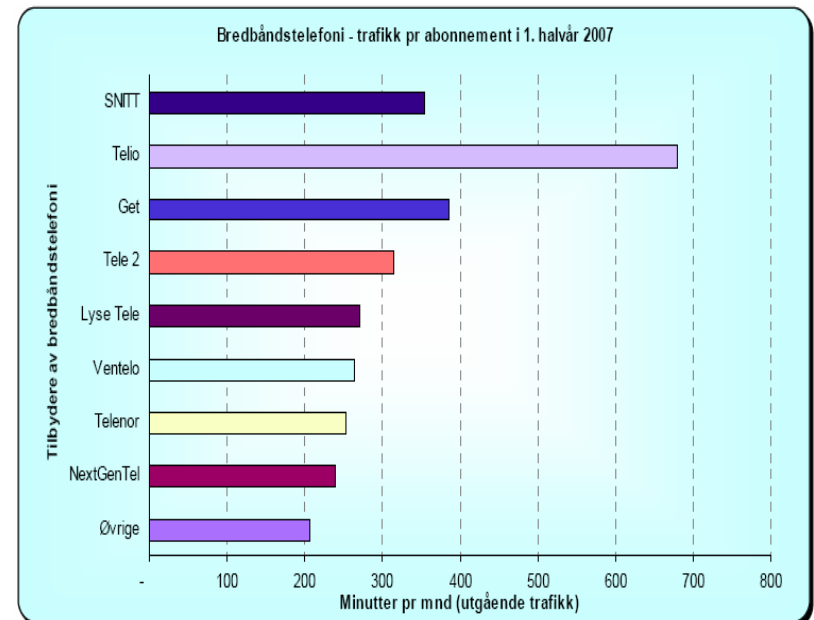

Where is Telio in this picture?

- Broadband telephony is being reduced to 2 major players;
 - Telenor and Telio
- Number of VoIP service providers is going down
 - Significant reduction in 2007
 - and our estimate is that this process will accelerate in 2008
- Telio has succeeded in attracting customers with high loyalty and high volumes

Customer value proposition = loyal customers

- Number of minutes per subscriber is significantly higher for Telio than the competition

- and thus very effective price per minute

International

- Healthy growth
 - DK 114% compared to Q4 06
 - NL 83% compared to Q4 06

- SMB service to be launched in Denmark in February

Technology and products update

- mVoIP for SMB launched end of November as indicated in Q3 presentation
- New devices expected to be launched during Q2
 - Linksys WRP400 - wireless access point with dual wireless network - enabler for faster adoption of mVoIP
 - Linksys SPA962 and 932 - Full featured High End IP Phone and Call Attended solution for SMB
 - Nokia N81 and N82 - new mVoIP devices that will be certified for Telio

Year 2008 should bring a number of new devices, which will make the product more appealing to the channels

Strategy update

- Engaged in M&A activities in late Q4 and January, but no transaction
 - Will continue to explore possible strategic opportunities
- Norway: Focus on building distribution for SMB services
- International: Market opportunities to be explored

Update legal issues

- Ecom
 - The Oslo Tingrett Court has now decided that the ecom issue has legal interest and that a court case most probably will take place before summer 2008.

Q4 07 Highlights

- Continued customer growth
 - Subscribers: total increase of 4,214 VoIP customers during 4th quarter
 - Revenues: NOK 94.3 million, 20% increase compared to Q4 06
